SCHEDULE THE RIGHT STAFF, AT THE RIGHT TIME, FOR THE BEST PERFORMANCE

Predictive Insights uses AI and machine learning to optimise your staff management and scheduling, saving your business time and money.

PREDICTIVE INSIGHTS

GET YOUR STAFFING RIGHT WITH PREDICTIVE INSIGHTS

Is your staff the key-stone to your business' success?
Then you understand how essential it is to get the right people, working at the right time, to be the most motivated, productive and effective.

DO YOU WANT TO:

- halve labour scheduling errors?
- substantially reduce absenteeism?
- improve staff happiness, commitment and productivity which translates into a better client experience?
- better monitor performance and implement early-stage interventions to correct issues?

You can with Predictive Insights' personalised scheduling platform.

We combine workforce management data, the needs of your individual stores or business locations, your specific business rules, individual staff members' preferences and characteristics, and our own curated and highly accurate demand forecasts, with an AI and machine learning system to optimise your staff schedules, and find the best-fit staff matches for those schedules.

ABOUT PREDICTIVE INSIGHTS

We are a product development studio that uses AI and machine learning to improve our clients' products, services and strategy through the thoughtful use of data science, machine learning, and behavioural and organisational insights.

We work throughout Africa, the Middle East, the Indian sub-continent and the United Kingdom, with corporates, start-ups and SMEs across the restaurant, food processing, retail and financial services sectors, as well as NGOs, government and quasi-government organisations.

We are part of Alphawave, a group of dynamic companies all operating in the world of tech, software and electronics, which has been operating for 25 years.
